WAYS TO USE THE SMART KEY

1. HANDS-FREE KEY

The car will automatically recognize the key when you are within three feet of the door.

2. PHYSICAL BUTTONS

Press the buttons on the front face of the fob like you would with a normal electronic car key.

3. MANUAL KEY

Push the button on the side of the Smart Key and gently pull the manual key out of the bottom left-hand corner.

UNLOCKING THE DOORS

Your hand will activate the sensor on the inside of the two front door handles. Grab the driver's door handle to unlock it, or the passenger's door handle to unlock all doors.

Press the unlock button:

- Once to open the driver's door, or
- Twice to unlock all doors.

Insert the manual key into the driver's door and turn right:

- Once to unlock the driver's door, or
- Twice to unlock all doors.

LOCKING THE DOORS

Put your finger on the door handle touch sensor to lock all doors.

Press the lock button once to lock all doors.

Insert the manual key into the driver's door and turn left to lock all doors.

POPPING THE TRUNK

Push the rectangular button under the Toyota symbol and above the license plate and pull up.

Press and hold the open trunk button.

Open your car with the manual key and release the trunk from inside the car.

POWERING THE CAR

STARTING THE ENGINE

With the Smart Key nearby, place your foot on the brake and press the engine start/stop button once.

STOPPING THE ENGINE

Put the car in park, place your foot on the brake and push the engine start/stop button once.

OTHER FUNCTIONS

Push the engine start/stop button once to access the audio system, or twice to control the air and windows. Push once more to turn the car off.
