About This Content

Now updated to the 2nd Edition version, with enhancements to drag and drop functionality.

The Super Powers Companion includes and updates the superhero power system originally presented in Necessary Evil, and gives you everything you need to create your own superhero setting or expand the one you've got.

Combine the new setting rules, play styles, and power levels to tune your game to exactly what you want. Minor League Cosmic Heroes? It's possible! Heavy Hitter Street Heroes with Terminally Ill Bennies? Whatever you like!

There are new Hindrances and Edges. There's new gear. There's an expanded system for building your own super-headquarters, with multiple ways to pay for it.

There are over one hundred individual new villains, including super-teams. All the individual villains are built as characters with Ranks to help you gauge their abilities and to make them easy to convert to heroes if you like.

Don't forget the general opposition and handy templates—if you want to turn an average squirrel into an enormous winged undead reptile robot squirrel, you can do it in a flash!

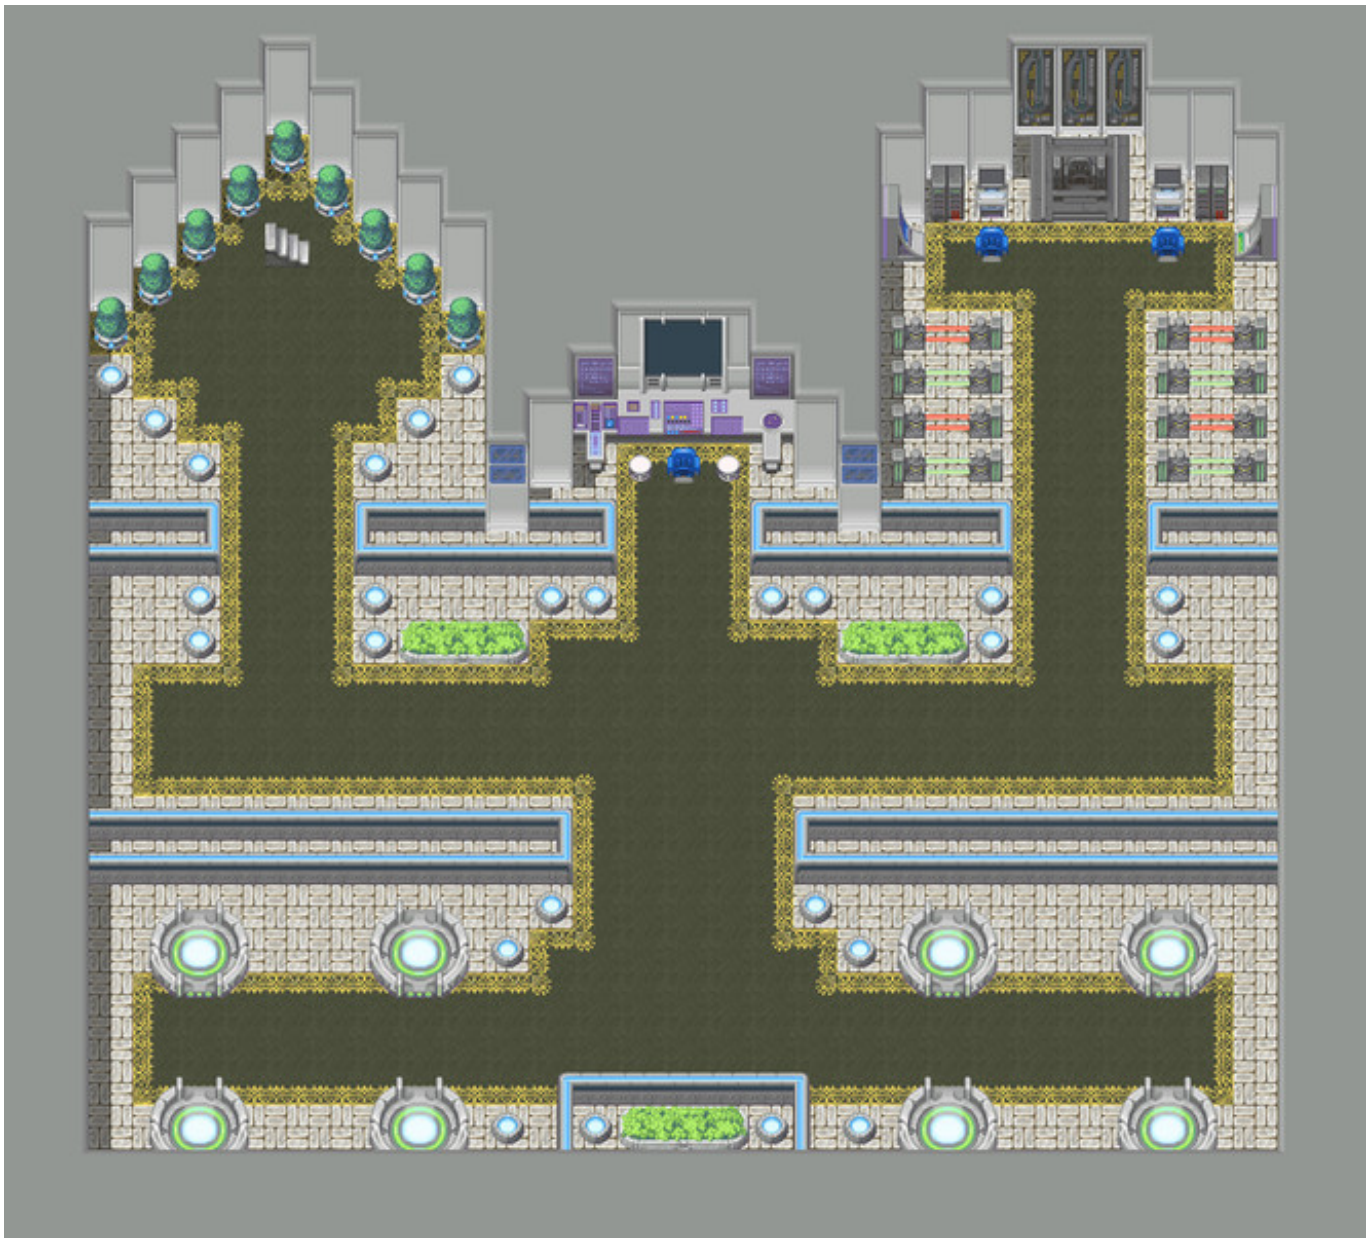
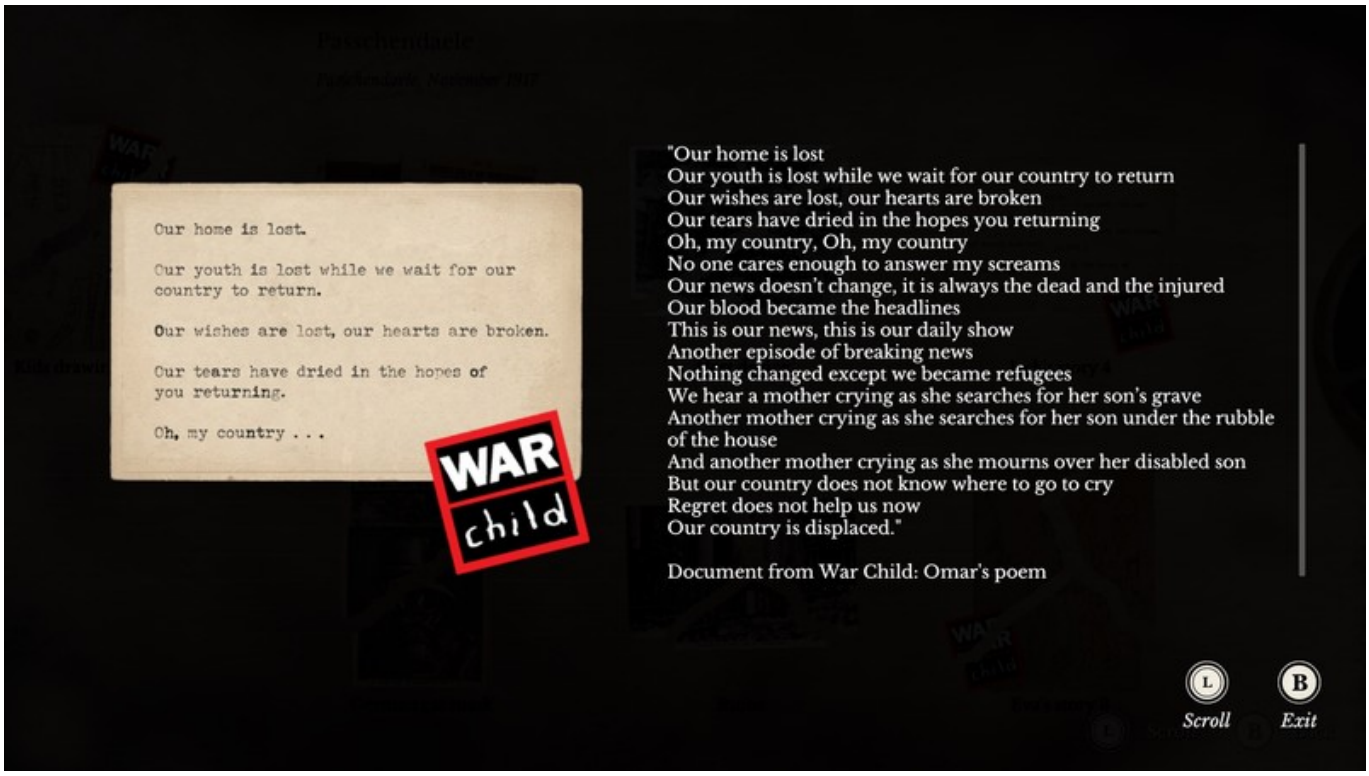
English



So, does this mean that your vacation is over?



Our home is lost.
Our youth is lost while we wait for our country to return.
Our wishes are lost, our hearts are broken.
Our tears have dried in the hopes of you returning.
Oh, my country . . .
WAR child
"Our home is lost
Our youth is lost while we wait for our country to return
Our wishes are lost, our hearts are broken
Our tears have dried in the hopes you returning
Oh, my country, Oh, my country
No one cares enough to answer my screams
Our news doesn't change, it is always the dead and the injured
Our blood became the headlines
This is our news, this is our daily show
Another episode of breaking news
Nothing changed except we became refugees
We hear a mother crying as she searches for her son's grave
Another mother crying as she searches for her son under the rubble of the house
And another mother crying as she mourns over her disabled son
But our country does not know where to go to cry
Regret does not help us now
Our country is displaced."
