About This Content

Capturing the details and bustle of a busy modern city is both challenging and time-consuming. Wouldn't you want a quick and easy shortcut to make modern mapping easier? Fantasy Buildings: Modern is just the pack for you!

Created by Celianna, this large and versatile pack contains over 45 buildings, in addition to several ground auto-tiles and detailed objects. Many of the buildings include several variations, allowing you to build realistic modern city environments. This pack was formatted to be used in RPG Maker VX-Ace editor or with parallax mapping, ensuring that everyone can use it - no matter how you prefer to map.

This pack contains:

- A variety of modern homes, including houses, apartment buildings, duplexes and high rises.
- Specialized buildings such as restaurants, hospitals, office buildings, automotive garages, retail stores and more.
- Easy to use materials -- already formatted into tile sheets for you!
- Material that matches the RTP, as well as the large variety of Celianna's resources.

I hail it nay - It's cheap, sure, but it is also very short and I have seen some problems with missions - like nobody checked it or devs had not enough time.. Overall great loco. The only complaint I have is how the dynamic brake system works. You have to switch the handle in the cab from PWR to DYM. Now if you drive using only cab controls then thats no problem, but if you use HUD controls (or a raildriver like me) it gets pretty annoying. I give this Loco 7/10, but the DLC I'll give 8.5 because of the rolling stock selection too.. I love this game <3. I first started playing HyperRogue on Android and I loved that, but the Steam version is much better. There is a huge variety of lands available resulting in a very replayable game. The gameplay is fun; collecting all of the achievements presents a large but not impossible challenge. The graphics are good and run at 60FPS on highest settings even on my five year old laptop.. I really like this budget racer, and it is a great first title for the developer! Well worth the \$1.99 price tag..

I have some suggestions to the developer that I believe will take this game from good to great and they are really pretty simple changes. I discuss them and show the gameplay on launch day in this video:

<https://www.youtube.com/watch?v=NRJDIHYICk&feature=youtu.be>

[The game is "FUN" which is the most important aspect especially on this little budget games. The four different modes are your difficulty of keeping control of your car, arcade is easiest, and realistic is hard but so much fun! Controls are pretty easy, WASD to move and steer, you can shift up and down if you like with Q for clutch, and CTRL and SHIFT for shifting up and down respectively. However shifting is NOT required as it will shift automatically for you, which is nice.](#)

[Not a bad game at all, especially for this developers first title here on Steam! It's early access and is only likely to get better with a few simple updates and changes! I'd get in now before the price likely jumps up as this fun little game improves! :-\)](#)

[My early score: 79% but this could be an easy 9 out of 10 budget game in my score book with a few simple changes!. super fun game deffinetly worth a buy cant wait to see how it turns out full release. Have fun trying to 100% this hot mess.](#)

Way of Hero is a very basic first-person shooter game.

The gameplay felt a bit stiff or wooden.
The artwork was ok, albeit somewhat basic.

You wander around the countryside, avoiding soldiers, or shooting them.
You can pick up guns, health, and ammo from various key points.

If you go on far enough, you get to fight some zombies in a cave.

The controls are the standard Unity controls; however, they can't be changed.
The audio is fine.

It's a very basic game.
At this stage, I wouldn't think it would be worth much more than \$1, if that.

I'm giving this production a very tentative thumbs up (I was tempted to give it a negative rating, but it probably passes as a "Meh" game").
Buy it if you want to try it, but don't expect a lot from the game.

Notes re. the above review:

- 1) It is the same as originally posted, except that I made some spelling corrections.
- 2) The game's original full price was \$1.99, which is why I said "I wouldn't think it would be worth much more than \$1, if that" - I thought that was worth mentioning, because now the full price has been dropped to 99 cents, and my original comment wouldn't seem to make sense (no pun intended), unless the original price was mentioned..

But seriously this is a great skin.. Old school is best school :))). fun the first 5 minutes, then it gets boring, can't do nothing with the money you make, absolutely boring.

. REALLY FUN GAME. A lot of people around me don't appreciate it *cough* Sam *cough*, but overall a great experience so far. 5/7. Not what is expected.. ENDING OF THE YEAR ALL YEARS. This game is short (I beat it in two hours), but it's very cute, a lot of fun, and a great way to pass an evening.. Few games have managed to give me buyer's remorse as quickly as this one has. Do yourself a favor and move along.. Same as in The Forgotten case - this DLC adds new campaigns and nations. Price is high though so I recommend buying only on sale.
Required for getting 100% with main game.
